

Our vision is to walk with all our relatives on the Red Road of life by remembering, renewing and restoring our traditional roles and values that bring life; so as to continually move forward, 'in a healthy way', as Indigenous People.

We do this through providing professional Indigenous social, educational, legal and health services through an existing Indigenous cultural, grassroots, community based agency; that provides a spectrum of Indigenous wholistic services for our Indigenous children, youth, adults and families.

Since The Red Road Healing Society opened in September, 1997, we have gone from working with a handful of people to providing multiple services to multiple people every month. We primarily deal with First Nations, Metis and Inuit people from all over Canada; however, we welcome all races and nations to participate in our programs and services.

We are an Accredited Early Intervention Program 2007; with Indigenous Designation in the categories of Mentoring, Outreach, Community Day Program and Crisis Intervention with Excellence until 2023.

The Red Road Healing Society offers a variety of programs and services throughout the year; in the day and evening, that are delivered from a cultural grassroots perspective; such as:
